

Plan of the Fort of St. Louis  
built by the French in 1764

Plan of the Fort of St. Louis  
built by the French in 1764  
The fort was built on a high bank of the Mississippi River  
and was surrounded by a double line of bastions  
The central part of the fort was a square  
with a circular bastion in the center  
The bastions were connected by a line of defense  
The fort was built with masonry and had a  
ditch around it  
The fort was built by the French in 1764  
and was destroyed by the British in 1764
